SUMMARY

Full-Stack Software Engineer eager to build and deploy scalable web applications using Java, Spring Boot, React, and TypeScript. Demonstrated ability to architect REST APIs, integrate relational databases, and ship production-grade software via Docker and cloud platforms. Having a decent foundation in data structures, algorithms, and system design. Adept at working in collaborative, agile environments and passionate about writing clean, maintainable, and performant code.

TECHNICAL SKILLS

Languages: Java (SE 21), JavaScript (ES6+), Typescript, SQL, HTML5, CSS3

Frameworks & Libraries: Spring Boot 3, Spring Data JPA, Hibernate, React 18, Node.js, Tailwind CSS, Vite

Databases: PostgreSQL, MySQL, H2 In-Memory Database

Tools & Platforms: Git, GitHub, Docker, Render Cloud, Google Cloud Platform (GCP)

Core Concepts: RESTful API Design, OOP, Data Structures & Algorithms

PROJECTS

FormCraft – Dynamic Survey & Quiz Builder | *Java, Spring Boot, JPA, PostgreSQL, JavaScript, CSS3* **2025 – 2026**

- Architected a full-stack survey-builder SPA enabling users to create multi-type forms, distribute shareable links, collect submissions, and view real-time analytics – serving live traffic at survey-builder-1l65.onrender.com.
- Built a Spring Boot 3.3 REST API (Java 21) with Spring Data JPA & Hibernate to persist nested entity graphs (Surveys → Questions → Options → Responses → Answers) using PostgreSQL in production and H2 for local development.
- Developed an interactive Vanilla JS creator interface supporting drag-free dynamic question cards (multiple-choice, open-text), live form previews, template loading, and clipboard link-sharing.

Developer Portfolio – Full-Stack Portfolio Website | *React, TypeScript, Tailwind CSS, Java HTTP Server, Docker* **2026**

- Designed and shipped a premium, responsive portfolio website (live at portfolio-1-y22r.onrender.com) using React 18, Vite, TypeScript and Tailwind CSS with Radix UI primitives and custom micro-animations.
- Implemented a contact pipeline that persists form submissions as JSONL records and delivers live email alerts via raw SSL/TLS socket SMTP connections, with no external mail SDK.

EDUCATION

Tontadarya College of Engineering

Bachelor of Engineering in Computer Science & Engineering – CGPA: 7.57 / 10

Gadag, Karnataka
Aug. 2022 – Jun. 2026

Swami Vivekananda PU College

Pre-University – CBSE – Percentage: 80.5%

Hulkoti, Karnataka
Jun. 2020 – Apr. 2022

CERTIFICATIONS & TRAINING

Full Stack Web Development

Comprehensive training in front-end and back-end development practices

Agartas Edutech

Web Development Internship

Practical internship building and deploying production web features

NewGen Softech
