SUMMARY

I am a Full-Stack Software Engineer eager to build and deploy scalable web applications using Java, Spring Boot, React, and TypeScript. Demonstrated ability to architect REST APIs, integrate relational databases, and ship production-grade software via Docker and cloud platforms. Developed foundational skills in data structures, algorithms, and system design through academic projects and practical experience applying these concepts. Adept at working in collaborative, agile environments and passionate about writing clean, maintainable, and performant code.

TECHNICAL SKILLS

Languages: Java (SE 21), JavaScript (ES6+), Typescript, SQL, HTML, CSS

Frameworks & Libraries: Spring Boot, Hibernate, React, Node.js, Tailwind CSS, Vite

Databases & Tools: PostgreSQL, MySQL, H2 In-Memory Database, Git, GitHub, Docker, Render Cloud

Core Concepts: RESTful API Design, OOP, Data Structures & Algorithms

Soft Skills: Collaborative, Maintainable code, Passion for learning

EXPERIENCE

TAP Academy -- *Java Full Stack Web Development Trainee* Bengaluru, Karnataka *February 2026 – Present*

- Built end-to-end full stack web applications using React (frontend) and Java with Spring Boot in a professional on-site training environment.
- Designed and implemented relational database schemas in MySQL, enhancing data integrity and optimizing queries, resulting in improvement of query performance.

PROJECTS

FormCraft – Dynamic Survey & Quiz Builder | *Java, Spring Boot, JPA, PostgreSQL, JavaScript, CSS3* *2025 – 2026*

- Architected a full-stack survey-builder SPA enabling users to create multi-type forms, distribute shareable links, collect submissions, and view real-time analytics – serving live traffic at survey-builder-1l65.onrender.com.
- Built a Spring Boot 3.3 REST API (Java 21) with Spring Data JPA & Hibernate to persist nested entity graphs (Surveys → Questions → Options → Responses → Answers) using PostgreSQL in production and H2 for local development.
- Developed an interactive Vanilla JS creator interface supporting drag-free dynamic question cards (multiple-choice, open-text), live form previews, template loading, and clipboard link-sharing.

Developer Portfolio – Full-Stack Portfolio Website (Live: <https://vivek-odugoudar.vercel.app/>) | *React, Java, Typescript, TailwindCSS, Docker, Render* *2026*

- Interactive Frontend: Designed a responsive portfolio featuring staggered hover animations and an interactive brand-colored skill canvas to elevate user engagement.
- Resilient Form Pipeline: Integrated a contact form pipeline using FormSubmit's AJAX API for instant email delivery, backed by local JSONL persistence.
- Dockerized Deployment: Configured a multi-stage Docker build pipeline for continuous integration and automated deployment to Render Cloud.

EDUCATION

Tontadarya College of Engineering Gadag, Karnataka
Bachelor of Engineering in Computer Science & Engineering – CGPA: 7.61 / 10 *Aug. 2022 – Jun. 2026*

Swami Vivekananda PU College Hulkoti, Karnataka
Pre-University – CBSE – Percentage: 80.5% *Jun. 2020 – Apr. 2022*

CERTIFICATIONS & TRAINING

Agartas Edutech -- *Full Stack Web Development* *Aug. 2025 – Oct. 2025*
Comprehensive training in front-end and back-end development practices
